1. Claims 10-24 are present for examination.
2. Claims 8 and 12-13 are objected to because of the following informalities:
 - i. Claim 8 depends on itself. For purpose of examination, examiner assume claim 8 depends on claim 1.
 - ii. Claim 12 further limits claim 10 not claim 11. For purpose of examination, examiner assume claim 12 depends on claim 10.
 - iii. Claim 13 further limits claim 11 not claim 12. For purpose of examination, examiner assume claim 13 depends on claim 11.. Appropriate correction is required.
3. This application contains claims directed to the following patentably distinct species of the claimed invention:
 - Species 1: claims 2; 17.
 - Species 2: claims 3, 5; 10, 12; 18, 20.
 - Species 3: claims 4, 6; 11, 13; 19, 21.
4. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, species 1-3 have claims 1, 9, and 16 as generic claims. Claims 7-8, 14-15, and 22-24 will be examined regardless of species electing by applicant.

5. Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

6. A telephone call was made to Mr. Duke W. Yee on 05/28/2004 to request an oral election to the above restriction requirement, but did not result in an election being made.

7. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Le H. Luu, whose telephone number is (703) 305-9650. The examiner can normally be reached Monday through Friday from 7:30 AM to 5:00 PM.
